

Ballot Initiative #53

CO Citizen-Funded Campaigns

- Levels the playing field in state elections by replacing “big money” to candidates.
- Candidate participation in Public Financing is voluntary. Three states now have voluntary Public Financing. In Maine, participation increased to over 90% in 8 years.
- Clean Campaigns are funded by a nominal tax - \$5–\$10 per individual, \$10–\$20 per joint tax return annually - a small price to pay for Clean Election Campaigns. Participating candidates collect a limited number of small donations as seed money.
- The amount provided to Citizen-Funded candidates is the average spent to win a given race over the past two election cycles.
